PROFILE

A programmer and tech enthusiast who always believes in learning and exploring myself. Currently, exploring and learning Web development. I'm looking for an opportunity to apply my knowledge and work collaboratively on exciting web development projects. I' meager to kickstart my career in the tech industry.

PROJECTS

OTT PLATFORM
- Developed a robust OTT platform using HTML, CSS, JavaScript, Node.js, and Bootstrap. Implemented Authentication, Home Page, About Page, Sign in Page, Search Bar. Ensured responsive design and optimized performance for enhanced user experience.

Cara (E-COMMERCE WEBSITE)
- Developed a E-Commerce Using HTML5, CSS, JavaScript, . Implemented features such as product listings, shopping cart functionality. Ensured a responsive design and optimized the user interface for a seamless and intuitive shopping experience, enhancing customer satisfaction and engagement.

CODE EDITOR
- Built a feature-rich code editor specifically for HTML, CSS, and JavaScript using React.js. Integrated syntax highlighting, real-time code execution, and an intuitive user interface. Ensured a responsive design for optimal performance across devices, enhancing the coding experience for users through a seamless and interactive environment.

My Portfolio
- Developed a professional portfolio website using HTML, CSS, and JavaScript. Designed to showcase projects, skills, and experience with a clean and visually appealing layout. Ensured responsiveness and smooth navigation for an optimal user experience, highlighting achievements and capabilities effectively.

Movie Information Website
- Created a dynamic movie information website using HTML, CSS, and JavaScript, integrating with a movie API (such as IMDb or The Movie Database). Implemented features for searching, displaying movie details, and user interaction. Ensured a responsive design and intuitive interface for seamless navigation and enhanced user experience.

- **Other Projects**

- To Do List Website
- Weather Website
- Notes Website
- Keeper App (React JS)
- To Do List(React JS)
- Anime Storing Website
- Dog Breed Search Website
